## WORK EXPERIENCE

### CONSTRUCTION MANAGEMENT SAAS

Built a SaaS platform using Flask and Jinja for construction companies, reducing time spent by site managers by up to 85%.

### FOUNDER & FULL STACK DEVELOPER WEBIPS

Jan 2024 - Present

As the founder and CEO of Webips, I lead the development of custom websites, e-commerce platforms, and software solutions for clients. My role involves full-stack development, project and client management, and delivering tailored digital products. This experience sharpened my technical, organizational, and communication skills through real-world projects and direct collaboration with clients.

### BACKEND DEVELOPER INTERN TIAC D.O.O

Aug 2023 - Sep 2023

Successfully developed a robust .NET Web API for a social media platform, integrating Microsoft SQL Server for efficient database management. Gained hands-on experience in backend development, enhancing data handling and API performance to support a seamless user experience.
